**DETAILED ACTION**

1. The amendment filed 4/4/07 has been entered.

***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claim 1 is rejected under 35 U.S.C. 102(b) as being anticipated by Downes (US Patent No. 6,029,980).

Regarding claim 1, the Downes reference discloses a reciprocating seal (12) provided in an annular space formed between a shaft and a housing (Col. 3, Lines 21-23), which move relatively to each other in a direction of the shaft (Col. 3, Line 66 - Col. 4, Line 4), said reciprocating seal comprising

a seal lip (10) brought into sliding contact with a surface of the shaft (Col. 3, Lines 53-65),

the seal lip having a two-step lip structure (Fig. 2) including a first step (e.g. 10) and a second step (e.g. 14),

a plurality of protrusions (38) extending in a direction parallel to the shaft, said plurality of protrusions being formed on a surface of the second step (Fig. 2). Note that the plurality of protrusions extend radially parallel to the shaft in the Downes reference.

***Response to Arguments***

3. Applicant's arguments filed 4/4/07 have been fully considered but they are not persuasive.

With regards to the applicant's argument of the protrusions not being parallel to the shaft of the Downes reference, the argument is not persuasive because the protrusions are radially parallel to the shaft.

***Conclusion***

4. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
